To: All Students

From: UCI Student Affairs

Subject: UCI Mental Health Survey

Dear UCI Community Member:

The UCI Mental Health Initiative has launched a campuswide survey on mental health issues, in order to assess the needs of the UCI community and the adequacy of mental health resources on the campus.

Faculty, staff and administrators were recently surveyed, and students are now being asked to provide feedback on these issues. (Note: Students who responded to the first survey do not need to take it again. Because of a technical problem, most students did not receive that survey email.)

Please click on the link provided to access the survey if you are 18 years of age or older. Login with your UCINetID and Password to take the survey at:

Survey Link: <http://www.survey.uci.edu/hsgmentalhealth>

The survey window will be open until 5 p.m. on Friday May 26, 2006.

Your participation in this survey is completely voluntary and anonymous. If you are uncomfortable answering any of the questions, please leave them blank.

I would like to encourage all members of the UCI community -- students, faculty and staff -- to provide their input on these important issues by participating in the online survey, which should only take a few minutes to complete.

If you have questions or comments concerning the survey, please contact the UCI Mental Health Initiative by emailing: wzeller@uci.edu.

[NOTE: If you have trouble accessing the survey from your computer, you can try switching web browsers and/or try it from a different computer.]

Thank you for your participation in this survey.

Sincerely,

Thomas A. Parham

Assistant Vice Chancellor, Counseling & Health Services
